SEMINAR III

**WIND ENERGY
PROJECT
DEVELOPMENT**

**30TH & 31TH OF MAY 2007
MOSTAR, BOSNIA AND HERZEGOVINA**

SEMINAR SERIES:

WIND ENERGY IN SOUTH-EAST EUROPE

SEMINAR III

PROJECT DEVELOPMENT

The third and last seminar focuses on the main issues which let a wind farm project take off. In the seminar, technical, financial and legal aspects will be covered together with principal questions of project management.

CONTENT

- The life time cycle of a wind farm project
- General infrastructure, grid connection
- Public interests
- Conservation of nature and environment
- Cost structure of wind farm investments
- Contracts: purchase, operation, insurances, maintenance
- Project management
- Basics for the theoretical Wind farm layout
- Experiences from the alpine wind farm in Oberzeiring / Austria
- Case study wind farm project at Podvelez plateau / BiH
- State of affairs regarding wind energy projects in South-East Europe
- General discussion

DATE

30th and 31st of May 2007, 10.00 – 17.00 o'clock

LECTURER

1st Seminar Day: Hans-Peter Waldl, Overspeed / Germany
(In subcontract of DEWI)

2nd Seminar Day: Different lecturers present topics about experiences with wind energy projects in Austria and South-East Europe

TARGET GROUP

Energy utilities, Meteorological Institutions, Universities, Banks, Project developers, Investors, Wind turbine manufacturers

SEMINAR LANGUAGE

English

VENUE OF SEMINAR

Venue **Hotel "ERO" Mostar**

Certificate A certificate of participation will be given out at the end of the Seminar

WITH SUPPORT OF

Austrian
 **Development Cooperation**

The first day of the seminar is held by Overspeed GmbH & Co. KG on behalf of DEWI, the German Wind Energy Institute.

Overspeed is an innovative service and consulting company with focus on wind power and the energy business area. Their focus on modern, forward-looking methods reflects in their consulting services and products as well as in their research and development activities. The course is held by Dr. Hans-Peter Waldl, managing director of Overspeed. Dr. Waldl was working until 2001 as a senior scientist at the University of Oldenburg, managing the wind energy activities of the energy and semiconductor group for eight years. Since 1994, he is lecturer in the post graduate programme "Renewable Energies" at Oldenburg University.

SEMINAR
ORGANISATION

energiwerkstatt° is a globally operating Engineering Company, which has been developing wind energy projects since 1986. Based on the experience of many wind energy projects in Austria, energiewerkstatt° is specialised in carrying out projects in harsh weather conditions and mountainous regions.

Two decades of experience in the implementation of wind energy in Austria are the basis to apply the collected knowledge in new markets. Together with international partners and with support of development organisations, energiewerkstatt° establishes know-how by organising seminars and workshops.

SEMINAR
SPONSORING

Windkraft Simonsfeld GmbH is one of the leading Wind Farm Operators in Austria with a total installed capacity of 72.5 MW. The company was founded in the year 1996 in Simonsfeld in the north-east of Austria. Meanwhile the business activities have been extended to Czech Republic, Slovakia, Serbia and Montenegro, Bosnia and Herzegovina, Croatia and Romania.
